Important Notice

This Presentation is given by Group Eleven Resources Corp. (“the Company”), incorporation number BC1098004, registered office at 1050-400 Burrard Street, Vancouver, BC, Canada, V6C 1M2 and is made subject to the terms outlined below. No securities regulatory authority has expressed an opinion about the information contained in this Presentation and it is an offence to claim otherwise.

This document and its contents may not be reproduced, redistributed or passed on, directly or indirectly, to any other person or disclosed or published, in whole or in part, for any purpose. This document is being provided for information purposes only and thus viewing, downloading, reproducing, copying or distributing this Presentation may be restricted by law in certain jurisdictions.

Except for statements of historical fact relating to the Company, certain statements in this Presentation may constitute forward-looking information, future oriented financial information, or financial outlooks (collectively, “forward-looking information”) within the meaning of Canadian securities laws. Forward-looking information may relate to this Presentation, Company’s future outlook and anticipated events or results and, in some cases, can be identified by terminology such as “may”, “will”, “expected”, “estimate”, “potential” or “possible” or other similar expressions concerning matters that are not historical facts and include, but are not limited in any manner to, those with respect to commodity prices, mineral resources, mineral reserves, realization of mineral reserves, existence or realization of mineral resource estimates, the timing and amount of future production, the timing of construction of the proposed mine and process facilities, capital and operating expenditures, the timing of receipt of permits, rights and authorizations, and any and all other timing, development, operational, financial, economic, legal, regulatory and political factors that may influence future events or conditions, as such matters may be applicable. In particular, this Presentation contains forward-looking statements pertaining to proposed expenditures for exploration work, and general and administrative expenses.

Such forward-looking statements are based on a number of material factors and assumptions, and include the ultimate determination of mineral reserves, if any, the availability and final receipt of required approvals, licenses and permits, sufficient working capital to develop and operate any proposed mine, access to adequate services and supplies, economic conditions, commodity prices, foreign currency exchange rates, interest rates, access to capital and debt markets and associated costs of funds, availability of a qualified work force, and the ultimate ability to mine, process and sell mineral products on economically favourable terms. While the Company considers these assumptions to be reasonable based on information currently available to it, they may prove to be incorrect. Actual results may vary from such forward-looking information for a variety of reasons, including but not limited to risks and uncertainties disclosed in this Presentation. The Company has no specific policies or procedures for updating forward-looking information. Forward-looking statements are based upon management’s beliefs, estimates and opinions on the date the statements are made and, other than as required by law, the Company does not intend, and undertakes no obligation to update any forward looking information to reflect, among other things, new information or future events. Potential investors are cautioned against placing undue reliance on forward-looking statements.

This Presentation does not constitute investment advice or a recommendation regarding the securities of the Company or an offer or invitation to subscribe for securities of the Company or its affiliates.

Scientific and technical information in this Presentation, excluding information related to other companies obtained from publicly available sources, has been approved by Prof Garth Earls, Eur Geol, PGeo, FSEG of IGS (International Geoscience Services) Ltd., who is a qualified person for the purposes of National Instrument 43-101 and who is independent of the Company. Scientific and technical information is derived from the technical reports entitled “NI 43-101 Independent Report on a Base Metal Exploration Project at Ballinalack, County Westmeath, Ireland” with an effective date of January 11, 2019, “NI 43-101 Independent Report on the Zinc-Lead Exploration Project at Stonepark, County Limerick, Ireland” with an effective date of April 26, 2018, and “NI 43-101 Independent Report on a Base Metal Exploration Project at Silvermines, County Tipperary, Ireland” with an effective date of February 28, 2017, each of which was prepared for the Company by EurGeol Dr. John G. Kelly, PGeo, MIMMM, MIQ and EurGeol Paul Gordon, PGeo, MSc of SLR Consulting (Ireland) Ltd. in accordance with National Instrument 43-101. Complete copies of the technical reports are available for review, in colour, on the System for Electronic Document Analysis and Retrieval (SEDAR) located at the following website: www.sedar.com.

Why Zinc?

Global Refined Zinc Inventories at Lows, Zinc Price Buoyant on Mine Supply Constraints

- ▶ **Green Energy Revolution**
 - Zinc-Batteries for Grid Power Storage
 - Offshore Wind
 - Solar Farms
- ▶ **Zinc in Fertilizers**
 - China: World Food Program
- ▶ **Conventional Uses**
 - Galvanizing Steel, Die-Casting, Chemicals, Agri. and Pharma.
- ▶ **Mine supply**
 - Recently Falling and Unlikely to Meet Projections
- ▶ **Infrastructure**
 - US and China – to Accelerate Infrastructure Spending?

Team – Exploration, Capital Markets and Legal Experience

Board of Directors

Dan MacInnis | Chairman (non-executive)

- Geologist / Executive

Why Ireland?

Unrivalled Zinc Potential - Ranked No. 1 in the World for Zinc Found Per Square Kilometre

Greenest Zinc in the World?

- Clean Metallurgy – Coarse, Clean Ores
- Infrastructure Rich – Roads, Power, Tidewater
- Proximity to European Smelters
- Wind Power – 100% by 2030 (Offshore Ramp-Up)

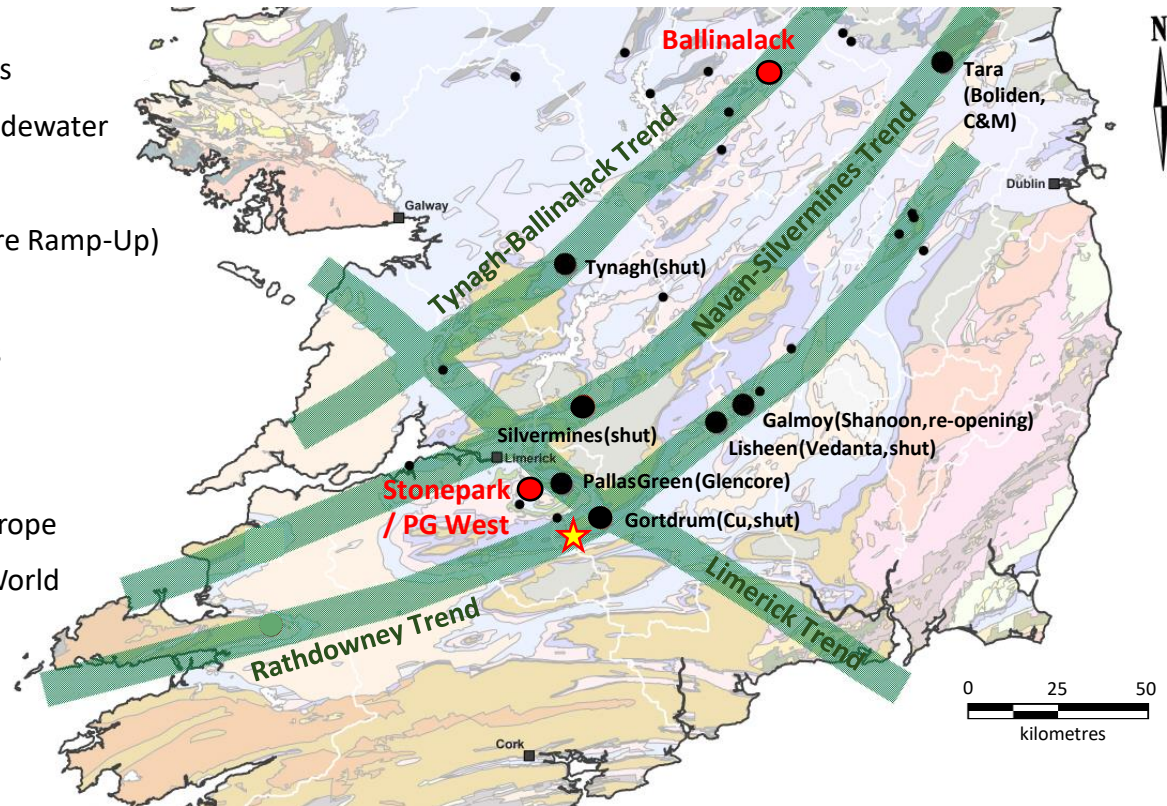

Mining History and Investment

- 6 Mines Permitted Over Last 60 Years
- Majors – Boliden, Glencore, South32

Fraser Institute (2023)

- No. 3 for 'Policy Perception Index' Europe
- No. 15 for 'Policy Perception Index' World

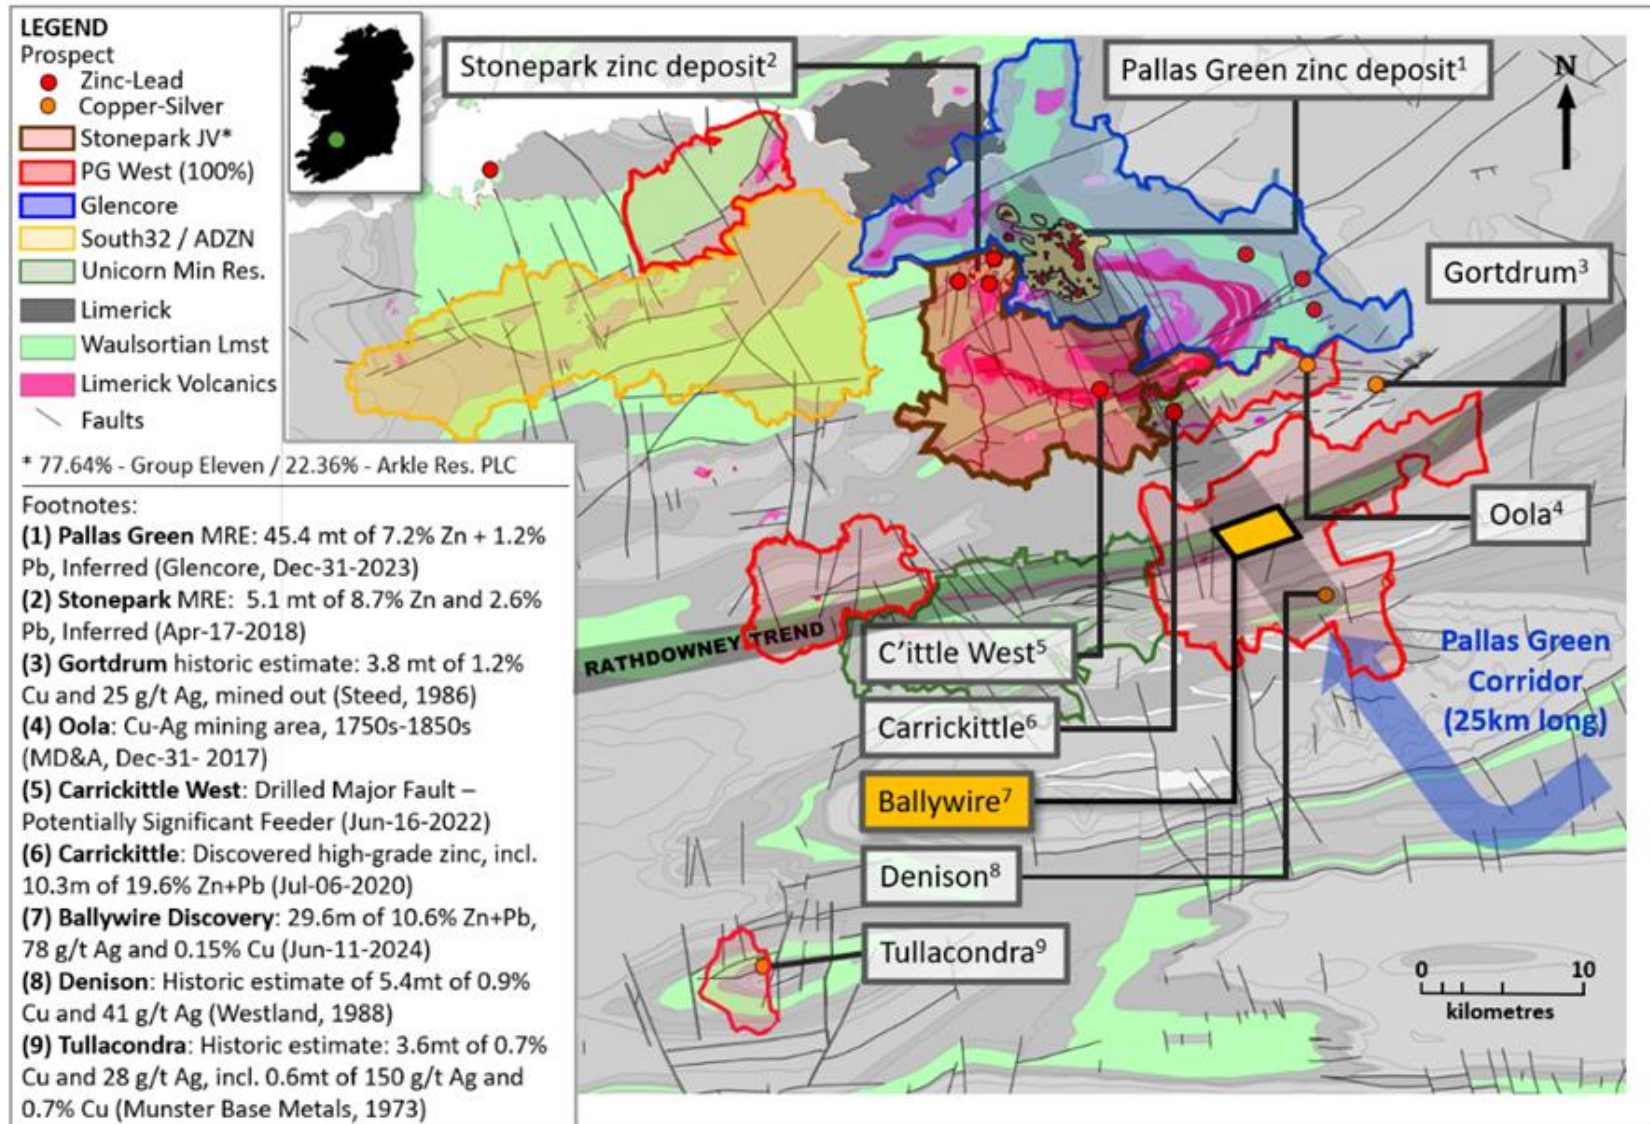

- Group Eleven asset
- ★ New Ballywire Discovery
- Zinc deposit
- Zinc – small deposit or major occurrence
